

# Andy Humes

humes.andrew@gmail.com

Denver, CO

Portfolio: <https://humesandrew.github.io/portfolio3/>

## Education

### Full-Stack Coding Bootcamp

*University of Denver  
(April, 2022)*

### Master of Biomedical Science

*Colorado State University*

### Bachelor of Science: Molecular Biology

*The Ohio State University*

### Bachelor of Arts: Anthropology

*The Ohio State University*

## Volunteer

### The Foundation Fighting Blindness

*Professional Outreach Chair  
Chapter Leader – Colorado  
(2018-present)*

### True Independence

*Secretary (2018-present)*

Determined, junior level coder versed in many coding languages with proficiency in the front end frameworks. Offers a unique adaptability, stemming from a heavy background in technical skills, complex systems, and analysis. Strong customer service background from many years in health care.

## Projects

### J4J – Java4JavaScripters

This is a MERN application that details our mock company's e-commerce store. We built the back end, front end, and of course made it jive. Or java. Technologies used: MongoDB, Express, React, GraphQL, Material UI.

### ChartMD

This is a full-stack application that acts as an electronic practice management system for a simulated doctor's office. Technologies used: Express, MySQL, Handlebars.

### Belly-Buster

This application allows you to look up breweries in any city in America. A map is included as well, should you have a few too many of such breweries. Technologies used: JavaScript, HTML/CSS

### React Portfolio

My portfolio using React and Sass.

### Express Note Generator

An application to track your list of to-do items, using a convenient note-taking system. Technologies used: Express, Node.

## Experience

Certified Ophthalmic Technician (*current*) – Clinical Research Assistant – Assistant Clinical Manager – Ocular Genetics Coordinator  
*2014 – present*

Research Assistant: Molecular Biology, Biochemistry – Microbiologist: Quality Assurance  
*2009 - 2014*
